DETAILED ACTION

1. Claims 1-97 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16, drawn to a process of making 9-halo-3-methyl-10-(4-methyl-1-piperazinyl)-7-oxo-2,3-dihydro-7H-pyrido[1,2,3-de][1,4]benzoxazine-6-carboxylic acid.

Group II, claim(s) 17-54, 56, and 64-97, drawn to intermediates and process of making.

Group III, claim(s) 55 and 57-63, drawn to process of making benzoxazine.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is substituted pyrido[1,2,3-de][1,4]benzoxazine ring (bridged heterocyclic ring). The special technical feature of Group II is substituted phenyl ring (non-heterocyclic ring). The special technical feature of Group III is a benzoxazine ring (no quinolines or no piperazine ring).

Art Unit: 1624

During a telephone conversation with Mr. Mark Boland on Sept. 22, 2003 a provisional election was made with traverse to prosecute the invention of Group I, claims 1-16. Affirmation of this election must be made by applicant in replying to this Office action. Claims 17-97 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Abstract

3. The abstract of the disclosure is objected to because it is more than one page. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 and claims dependent thereon are rejected because the phrase in Method 1 "an enzyme capable of asymmetrically hydrolyzing an ester or a liquid culture medium of microorganism, cells of this microorganism or processed cells of this microorganism" is not clear. What enzymes or liquid culture medium of microorganisms are covered and what are not?
